

who we are

We are a Group of Canadian Citizens dedicated to the relentless pursuit of truth in science, journalism and the rule of just laws to create a highly moral, ethical and principled society.

We recognize God as our Creator as does the Canadian Charter of Rights and Freedoms.

“ then you will know

THE TRUTH
and the truth will
SET YOU FREE ”

JOHN 8:32

**I AM
CANADIAN.**

**I will NOT sit down.
I will NOT shut up.
I will NOT comply.
I WANT MY COUNTRY BACK!**

The Truth Behind Face Masks

TRUE NORTH *strong & free*

Face Mask Mandates Violate SK OHS Science, and our Charter Rights to Life & Health

It is a **Self-evident truth** that breathing is essential to life. Restricting someone's breathing is a slow form of suffocation that is dangerous to the life and health of all individuals.

It is also a **Self-evident truth** that the people who are **FORCING OTHERS** to wear face masks are in violation of 50 years of science. They are ignorantly endangering the life and health of the Canadian people!

True Science Behind Face Masks

It is a commonly known fact that any human being deprived of oxygen for a period of 2 to 5 minutes will suffocate and can die from cardiac arrest. This is why parents teach their children to never place a plastic bag over their heads.

- 1 Under **Saskatchewan Occupational Health & Safety Regulations** an Employer cannot place an Employee in an UNSAFE WORK environment where the level of **OXYGEN IS BELOW 19.5%**. This would be considered **IMMEDIATELY DANGEROUS TO LIFE & HEALTH**.
- 2 Under SK OHS Regulations an Employer cannot place an Employee in an environment where the level of **CARBON DIOXIDE EXCEEDS 1,000 Part Per Million** as this would be unsafe. **CO2 ABOVE 5,000 PPM CONSIDERED HAZARDOUS ABOVE 40,000 PPM IS CONSIDERED IDLH**.
- 3 In January 2021, Canadians for Truth hired an OHS Expert who specializes in Respirators and Medical Masks to train us and to measure the Oxygen and CO2 behind various face masks.
- 4 **Face masks reduce OXYGEN from 21% (normal) to between 17% and 18% and increase CO2 levels from 380 PPM to 25,000 to 43,000 ppm making face masks Dangerous to Life & Health.**

Truth Behind Face Masks

Saskatchewan Occupational Health & Safety Regulations exist for a reason; to protect Employees & Employers from harm to life and health.

The truth in the science governing respirators and medical and non-medical masks is based on more than 50 years of pursuit of truth in respiratory science.

OSHA or Occupational Health & Safety Administration in the United States and the Canadian Scientific Standards align. Truth in Science does not change from one country to another.
